PROFILE

I am a young curious, and eager-to-learn individual hailing from the Oulu region. I possess a sense of humor and a calm demeanor, but I am also responsible and reliable. As an employee, I am punctual and diligent. I'm not afraid to seek assistance when things don't progress as expected or if I make a mistake. I believe I have strong English language skills, which lets me connect with individuals whose native language isn't Finnish. Moreover, helping others brings joy to my life. I look forward to the opportunities to contribute my skills in a supportive environment.
